Forecast for Tuesday 12 Jan 2021

Weather: Low cloud will persist across the area throughout the day with rain feeding in from the west. This rain will be heavy at first but then tending to be mostly light. The best chance of any drier and brighter interludes will be during the afternoon.

Chance of cloud free mountain/hill tops above 600m: 30-40% but 60% for a time during the afternoon and early evening.

Visibility: Moderate in heavy rain but otherwise good at low levels. Poor in low cloud at height with bases 500-600m.
